Our approach

Step 1

Active listening

A friendly discussion to identify your needs and challenges, and a detailed analysis of your situation.

Step 2

Formalized commitment

Signature of a mandate letter clarifying services, costs and billing terms.

Step 3

Strategic actions

Rigorous defense of your interests, guided by the intangible principles of loyalty, efficiency, diligence and responsibility.

Our services

CONSULTING

Through our consultancy services, we help our customers to protect their interests, secure their operations and meet their challenges with innovative, value-added solutions.

LITIGATION

Our experts have the necessary expertise in both pre-litigation (mediation, conciliation, administrative appeals) and litigation (arbitration, court proceedings).

TRAINING

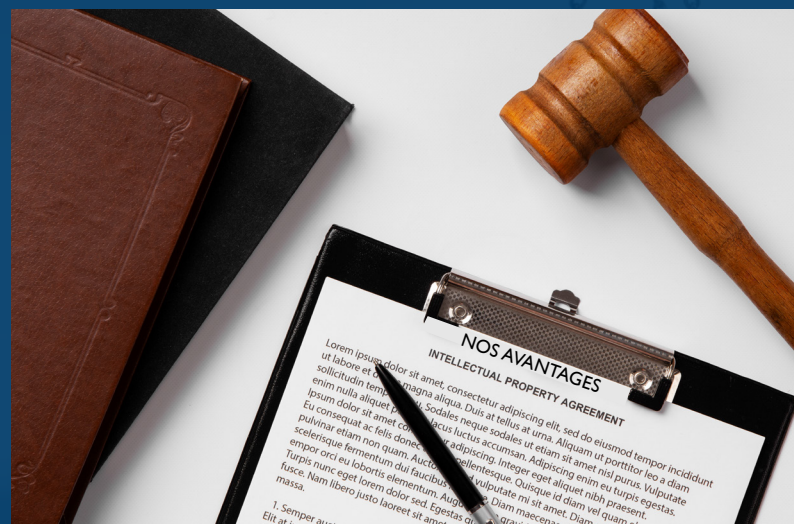

We offer training tailored to the specific challenges of each sector, enabling our customers to acquire the skills they need to stand out from the crowd. These courses are aimed at both experienced and novice managers.

Our MUST

Outsourcing or strengthening your legal services

Whether you're a corporate executive or a public body, if you don't have the resources to set up a high-performance in-house legal department, or if your existing department needs additional support for certain operations, in line with our values of excellence, efficiency, diligence and confidentiality, we offer you the opportunity to benefit from our high value-added, tailor-made services.

For you, the advantages are many and far from negligible :

- Optimization of charges, particularly social charges ;
- Better cost control ;Privileged access to our services ;
- Reduced risks for you, your teams and the structure ;
- Flexible collaboration (remote assistance and face-to-face if required) ;
- Provision of one or more experts in your field;
- Daily reinforcement of the capabilities of your legal staff.

Our expertise

- Legal, institutional, labor and tax audits;
- Legal, tax and financial structuring;
- Negotiation, drafting and review of legal deeds;
- Securing procedures, documents and processes;
- Securing operations through sureties and/or other guarantees;
- Monitoring contractual commitments;
- Compliance and formalities;
- Dispute resolution (Defense and claim).

Introducing the Senior Partner

Cellou DIALLO

A Doctor of Law, Cellou Diallo has gained invaluable experience working for major corporations, consultancies, UN agencies, NGOs and public authorities, drafting documents and securing operations for large-scale projects in the energy, mining, public works,

transport, industry, agri-food, health and digital sectors. Mr. Diallo has also contributed to numerous reforms linked to investment (public and private), the financial sector, taxation, local content, economic recovery, public procurement (public contracts and public-private partnerships), OHADA rules, AML/CFT and the mobilization and securing of internal and external resources. For almost three years,

Mr. Diallo led Guinean delegations in loan agreement negotiations with development partners. He has sat on several boards of directors and is the author of several books.
